ANNUAL REPORT

“I’ve always been a hands-on learner, and I didn’t want the fact that welding is a male-dominated industry to stop me from pursuing my passion. Thanks to CAREERS, my off-campus coordinator at Hilltop High School, and the Registered Apprenticeship Program, I was able to earn credits while gaining hands-on experience in the trade. Now, I’m a year away from my journeyman’s ticket in a career I love.”

Kennedy Bahm
