Centre

2023
**ANNUAL
REPORT**

INTRODUCTION

FOR THE COMMUNITY BY THE COMMUNITY

When we got the call in 2021, that one of our patients died by suicide, it changed everything. It catapulted us to find a new way to deliver cancer care – that tends to the body and the mind.

Our community came together to create and carry out a vision for better wellness. A place where patients can get ahead of their prostate cancer journey with pre-habilitation programs that train them for treatment and recovery and inspire healthy ways of living.

In 2023 the walls have come down – literally and figuratively. Remington Development Corporation – a passionate, dedicated and long-time supporter - was the natural choice as our construction company.

Our new 9,000 square foot pre-habilitation space is designed to deliver exercise, nutrition, mental wellness and sexual health programs. Patients can access this throughout their cancer journey and from anywhere in the world.

With new mental wellness programs, including a focus on caregivers, we're breaking down the walls of stigma and shame surrounding men's mental wellness.

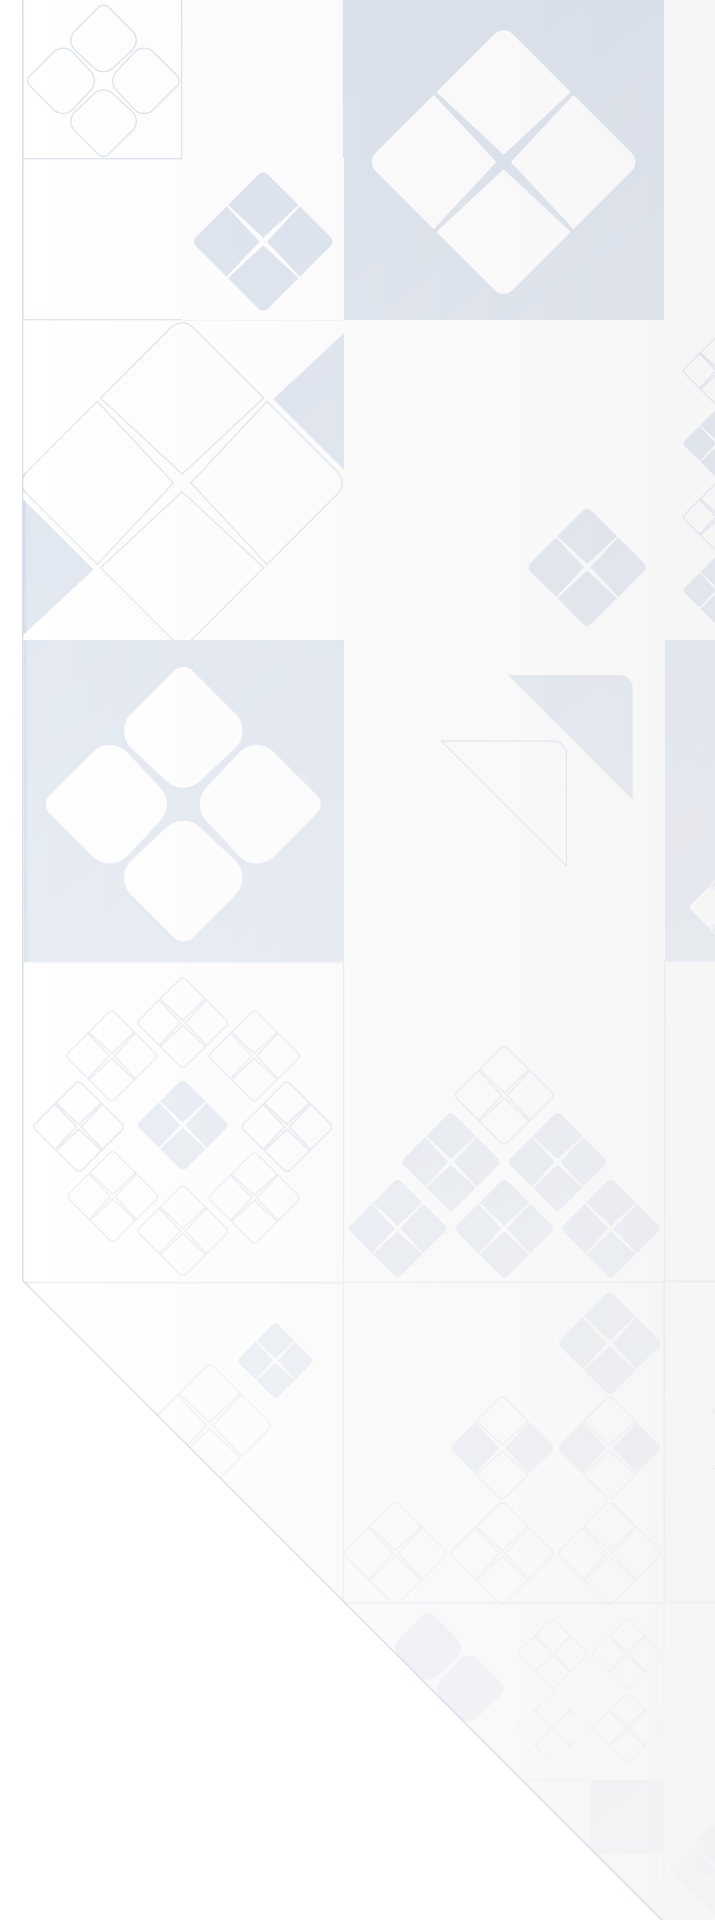

Our clinical research space is bigger and tailored so we can keep solving prostate cancer's biggest problems.

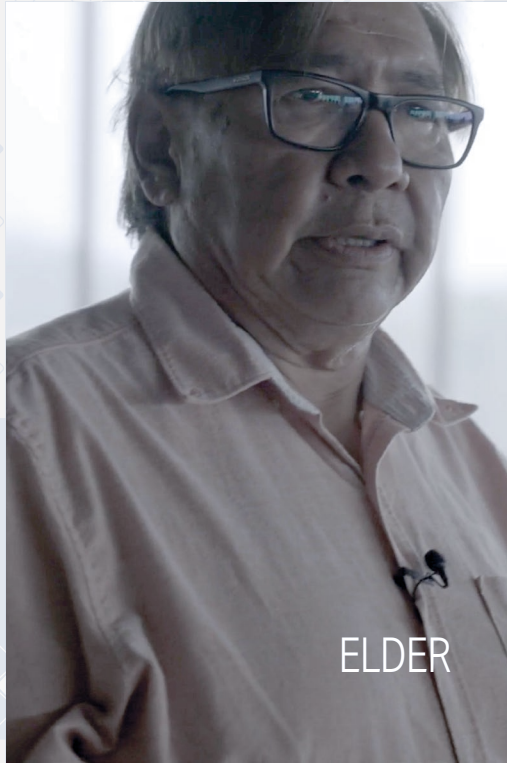

Our MAN VAN® program now reaches ALL Alberta men bringing down barriers to accessing preventive health care.

Mass transformation – physically and systemically – requires special people to act as a catalyst. It needs daydreamers and believers. Movers and shakers. Those people are YOU, our community.

Thank you to everyone who has made this incredible transformation possible.

And a special thank you to Remington Development Corporation who ensured our vision was brought to life with the utmost care and expertise.

ELDER

"You're the blessing that's going to help men walk through these doors. A lot of times you'll help them to live a long life, not just to live to breathe, but to have healthy relationships with their loved ones, to learn how to love the land."

-Chief Lee Crowchild, excerpt from blessing at the start of construction

DR. SUMMIT SAWHNEY

"We've enjoyed a 25-year partnership with the PCC and the Southern Alberta Institute of Urology. We have patients from all over Canada who come here for specialized fusion biopsies which allows us to make precise prostate cancer diagnoses; it's revolutionizing prostate cancer detection. We're proud of the work PCC has accomplished over the years, and specifically in bringing this expansion to life. We're in this together to give patients the best possible outcomes."

-Dr. Summit Sawhney, Clinical Site Lead at EFW Radiology

DR. BRIAN DONNELLY

"When PCC started in 1999, prostate cancer care, education treatment took a major step forward in Calgary. Our extended space accommodated new program development and expansion, ensuring a more comprehensive service, thanks to the ongoing support of our community. Since 2009, the MAN VAN® program continues, and has now expanded to the entire province. We are proud that our team brings access to every corner of the province. With this growth, our focus continues to be on patients, and to provide timely service, and access to all who need it."

-Dr. Bryan Donnelly, co-founder of the Prostate Cancer Centre

MESSAGE FROM CEO & BOARD CHAIR

FOR THE COMMUNITY BY THE COMMUNITY

Thanks to our community's support, this past year was transformational. **Our patients, doctors, employees, volunteers, donors and partners** came together to help us carve out new spaces and opportunities to deliver cancer care found nowhere else in the world.

If these walls could talk, they'd tell you stories of **courageous patients who trusted us with their care, families and their future. Of donors who believed in our vision to be a global leader** in prevention, treatment and elimination of prostate cancer and urological diseases. **Employees and volunteers who choose to inspire hope** and help patients combat prostate cancer.

Over the last year, our community has been **resilient, patient** and **creative** as we navigated our way through construction, implementing our new pre-habilitation and mental wellness programs, and the MAN VAN® expansion to northern Alberta. All of this allows us to care for more men and their families throughout their prostate cancer journey.

Together we have changed, together we have built it to last.

Keep reading to learn more about our story of transformation, how it's revolutionizing cancer care and men's health, and how it's happening for the community because of our community.

Thank you for your support.

Jeff Davison
Chief Executive Officer

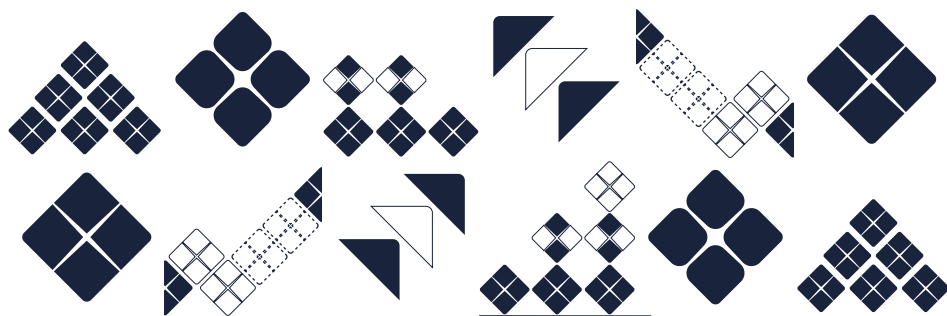

Keith Steeves
Board Chair

BUILDING FOR BETTER WELLNESS

Cancer is a marathon, not a sprint and the Prostate Cancer Centre is changing how we run the race. How will you maximize efforts? What needs to be part of your training? At the PCC's new pre-habilitation facility, that's what we're going to test and refine with evidence-based research.

In 2023, construction was in full force and the final details of the new programs were completed.

There is nobody else doing this in the world. With the latest in technology, personalized programming, a beautiful space that exudes comfort and safety, and a vision to treat the whole human, the Prostate Cancer Centre is the destination to get the best care possible.

BUILDING A HOLISTIC APPROACH TO CARE

Helping patients – and their families – build healthy habits so they have more control, are physically strong and mentally prepared to take on treatment and whatever comes after.

SMALL CHANGES. BIG IMPACT.

Get home sooner after surgery.

Faster recovery.

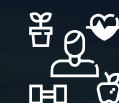

Less complications.

Reduce health care costs

More treatment choices

Healthy lifelong lifestyle

THE IMPACT OF DONORS

The **generous \$5 million donation from the Rance and Marilyn Fisher Family Charitable Foundation** to expand services and resources related to men's health accelerated our expansion:

1 New and upgraded equipment and technology allows us to reach **remote** and **rural areas** and **deliver high-quality care** to those who otherwise may not receive it.

2 With the expansion, we expect to serve **25% more patients**, getting specialized care to more men, faster.

3 A **comprehensive pre-hab program** for prostate health: pelvic floor exercises, such as kegels, core strengthening exercises, cardiovascular activities

The culture of cancer care must change to include how we show up for patients before and after treatment so they have better overall health and wellness, which can rewrite their entire cancer journey. The Prostate Cancer Centre's pre-habilitation program is the most brilliant example of how we can integrate wellness into cancer care.

DR. NICOLE CULOS-REED

~Dr. Nicole Culos-Reed is a professor in the Faculty of Kinesiology at the University of Calgary and holds appointments with the Department of Oncology at the Cumming School of Medicine and with the Department of Psychosocial Resources at the Tom Baker Cancer Centre. She has been working with the Prostate Cancer Centre since the early 2000s with expertise in health and exercise psychology for individuals living with cancer (and beyond).

The program is filling a huge gap in the patient experience. Our research takes on a patient engagement approach with the end goal of personalized programming. It will evolve and transform over time. I truly believe the Prostate Cancer Centre is changing the future of proactive health care and wellness. This is just the beginning.

DR. LIN YANG

~Dr. Lin Yang is a research scientist/epidemiologist in the Department of Cancer Epidemiology and Prevention Research at Alberta Health Services Cancer Care.

BUILDING MENTAL WELLNESS FOR PATIENTS AND CAREGIVERS

Prostate cancer treatment can be physically and emotionally draining, devastating and challenging. The outcomes of treatment can have a **lasting impact on quality of life and social connections**.

In 2023, we developed new programming for our new Mental Wellness Centre, which gives **patients and their partners, families or caregivers access to one-on-one and group counselling and peer support** aimed at encouraging individuals to care for their mental well-being.

PROSTATE CANCER IS A COUPLE'S CANCER

Prostate cancer often has a profound impact on the lives of a patient's partner or spouse. Following diagnosis, a couples' intimate relationship, family roles, work, finances and activities may be affected in many ways.

With this expansion, we've taken special attention to the needs of couples and caregivers. We've added:

Counselling services for individual caregivers and partners

Couples therapy

Individual and couples counselling related to sexuality concerns

New workshops to help caregivers and couples support their own mental health through the journey of supporting a loved one with prostate cancer.

It's great to see that cancer care at the Prostate Cancer Centre is extending beyond just the patient, to include partners and family members. Also, that counselling is going to be more fully integrated into the services patients can receive.

RESEARCH IN 2023

With the PCC's expansion, we've been able to grow our research scope by adding bladder cancer and scrotal pain to our studies. The more urological diseases we can study, the more patients we can help. This is going to have a major impact on our community and patients.

DR. GEOFFREY GOTTO

Urologic oncologist and founder of the Clinic for Advanced Metastatic Prostate Cancer at the Prostate Cancer Centre.

Wilf Bigcrow "rang the bell" in 2023, to mark entering remission and the end of cancer treatments. Participating in clinical trials gives patients access to cutting-edge pharmacology care and new treatment options, which can change the course of their cancer journey. For Wilf, it bought him more time for life's joys and milestones. A patient in PCC's clinical trials since 2016, he lived long enough to see all his kids graduate high school.

WILF BIGCROW

BUILDING PROMISE FOR PATIENTS

In 2023, the Prostate Cancer Centre experienced massive transformation with the development of a new **9,000 square foot pre-habilitation space**, as well as expansion to its office space. Research at the PCC also got a boost with an office and lab expansion, making room for **more growth and innovation**. We created **new health programs** and made advancements in **genetic research**.

"I'm very proud of our research team and their ability to transform strategies and spaces so we can continue to be one of the top facilities in Canada," says Julien Donnelier, Clinical Research Manager. **"Last year was an incredible year for growth and it's thanks to our community of patients, sponsors, partners and doctors."**

EXPANSION HIGHLIGHTS

Office and laboratory expansion: Our research space has seen considerable growth with the addition of new office space, providing more workstations for coordinators and volunteers. We've upgraded our laboratory facilities to enhance safety and efficiency, including an enclosed area for sensitive equipment and experiments.

Technology and space use: A new room dedicated to monitoring our patients and remote visits has been established to accommodate and facilitate telehealth research activities. We also expanded our research facilities with an extra examination room and initiated plans for a new procedure room, aiming to broaden the range of research activities at the Prostate Cancer Centre.

PROGRAM AND RESEARCH INNOVATION

New health programs: Our research team worked closely with Dr. Nicole Culos-Reed, Dr. Lin Yang, and Dr. Lauren Walker on our pre-habilitation and mental wellness programs. We supported these initiatives through the development of comprehensive operational and research databases.

Advancements in genetic research: We embarked on new genetic testing research projects. Under the guidance of Dr. Tarek Bismar, these projects are pivotal in advancing our understanding and management of prostate and other urological cancers, with a focus on improving diagnostic and prognostic tools.

THE DRIVE TO ELIMINATE ADVANCED PROSTATE CANCER ACROSS ALBERTA

MAN VAN® EXPANSION

When the MAN VAN® hit the road back in 2009, it served Calgary and a few surrounding southern areas. The funding wasn't there yet to go farther, but we didn't put that in the rearview mirror. We knew it would be a long trek, but we drove straight to our goal of reaching men across the entire province. And thanks to our community of donors, employees and volunteers, we arrived at our destination in 2023.

With our expansion to northern Alberta, we expect to reach **30% more communities including, but not limited to, Edmonton, Grande Prairie, Fort McMurray, and several provincial Indigenous communities.**

The MAN VAN® is a crucial service that addresses accessibility and health care needs of men. We help identify those at risk for advanced prostate cancer and educate men and their families about the importance of getting checked.

MAN VAN® THEN & NOW

2009

921 TESTS

First van hits the road serving Calgary

2012

3,293 TESTS

Second van to serve rural communities in southern Alberta

2023

5,012 TESTS | 148 CLINICS

Two vans and two retail units serving all of Alberta

**THE MAN VAN®
HAS COVERED
OVER 25,000KMS**

**65 RURAL CLINICS
83 URBAN CLINICS**

**5 INDIGENOUS
COMMUNITIES**

In 2023, we started our northern expansion operations with the support of our community of urologists, volunteers, donors and employees.

- 1.** Built relationships with the urologists at the Kaye Edmonton Clinic, who are critical to ensuring our patients have a pathway to care.
- 2.** Joined forces with the Edmonton Prostate Peer Support Society who have been instrumental in getting the MAN VAN® program up and running in Edmonton. Their team of volunteers – who are already dedicated to creating awareness and supporting men with prostate cancer – have joined the MAN VAN® program as volunteers, connected us with key partners, and drivers and continue to share their personal stories to ensure more men are getting checked or know the importance of getting checked.
- 3.** Hosted clinics in indoor settings (e.g. shopping malls) by purchasing two retail units, while we wait for our third van to become operational in June 2024.
- 4.** We grew our operational and care team in Edmonton to include a total of 11 medical lab assistants and nurses who cater to our northern operations.
- 5.** We hired an Indigenous Outreach Assistant who is responsible for building relationships with Indigenous communities and Métis settlements across Alberta.

WE RELY ON OUR COMMUNITY TO RUN THE MAN VAN® PROGRAM AND TO HELP US SAVE LIVES.

2,455
MENTAL WELLNESS
CHECKS

333 MEN HAD
ELEVATED
PSA LEVELS

The MAN VAN® is Canada's first mobile men's health clinic offering free Prostate Specific Antigen (PSA) blood testing for early prostate cancer detection.

Since 2009, the MAN VAN® has served more than **67,000** men in **150** communities.

Approximately **10%** of men tested through the MAN VAN® have a high PSA result and then end up on active surveillance or will receive a prostate cancer diagnosis.

In post-visit surveys, **46%** of men who visited a MAN VAN® followed up with a health-care provider within six weeks.

It has been an exceptional program from day one. I remember standing outside Safeway on a Saturday trying to convince men to talk to us. We'd be jumping up and down if we got 20 visits. Now, we have lineups of 100 men ready to hop on and get tested. It has been an incredible experience to see our impact soar and positively affect so many lives.

CAMILLE SCHEIBLE

General Manager of MAN VAN®,
Volunteer And PSA Laboratory Programs

NEW COMMUNITY PARTNERSHIP

DR. ADAM KINNAIRD, MD PHD FRCSC

Dr. Adam Kinnaird is a surgeon-scientist who spends his days researching and treating prostate cancer patients. With research interests in marginalized and Indigenous men, he knows that access to primary care in northern Alberta is vastly limited. We knew we needed Dr. Kinnaird on our side if we were going to successfully expand the MAN VAN® program to the north.

Dr. Kinnaird has been instrumental in building relationships with urologists, writing letters of support to government and fundraising agencies, and advocating for increased access to prostate cancer testing.

Dr. Adam Kinnaird helped to identify Dr. Dipak Patel, a general practitioner in Edmonton, who will be the main point of contact for patients who receive an abnormal PSA test result. He'll be making sure patients follow up with their primary health care provider to get additional testing.

"We need and continue to rely on our partners and advocates, like Dr. Kinnaird, to make the MAN VAN® successful," says Camille. **"In order for the MAN VAN® to do its job, we need a team of urologists who can analyze tests and follow-up with patients. Without that pathway to care, the MAN VAN® is just a blood test with no remedy."**

"If the MAN VAN® wasn't expanding to northern Alberta, then we'd be in a state of stagnation," says Dr. Kinnaird. **"There hasn't been a full-time urologist over the last few years in that region. Ultimately what we'd see is continued low rate of prostate cancer screening, cancer going undiagnosed and more men getting sick or dying."**

Dr. Adam Kinnaird is the Frank and Carla Sojonyk Chair in Prostate Cancer Research with the Alberta Cancer Foundation, an assistant professor in the Department of Surgery at the University of Alberta, and a member of the Alberta Prostate Cancer Research Initiative (APCaRI).

DR. ADAM
KINNAIRD

TERRY
KIRKLAND

VOLUNTEER - TERRY KIRKLAND

As a former air traffic controller, politician, and one of 11 kids, Terry is a pro at managing relationships and putting puzzle pieces together. As President of the Prostate Edmonton Peer Support Society (the Society), when he got wind the Prostate Cancer Centre was expanding the MAN VAN® program to northern Alberta, he gathered his troops to help make it a success.

Those involved in the Society share their experiences and promote empathy and camaraderie in the greater Edmonton area and northern communities.

"Our expansion simply wouldn't have happened if we didn't have the Society on our team," says Camille Scheible, General Manager of MAN VAN®. **"The reach is so vast, the potential is immense, and we categorically rely entirely on our community to help us build relationships and partnerships, spread awareness, and deliver testing and health care to vulnerable areas."**

Terry had prostate cancer and his diagnosis taught him the value of being proactive – if he weren't, he wouldn't have lived. Since then, more than 12 years ago, he's been motivated to share his story and get in front of men to create awareness about prostate cancer.

"Nothing in Edmonton has created awareness about prostate cancer like the MAN VAN® has," says Terry. **"Between the program and the peer society, men in our communities are finally getting increased access to proactive health care and testing, education and peer support, which means we've got a better chance at saving some lives."**

CELEBRATING
A 25 YEAR
PARTNERSHIP!

Welcome To The Priddis Greens Charity Golf Classic

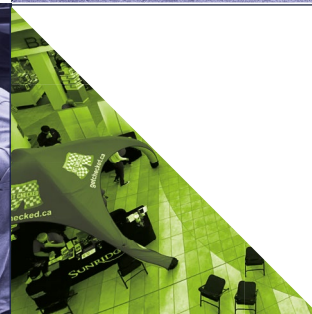

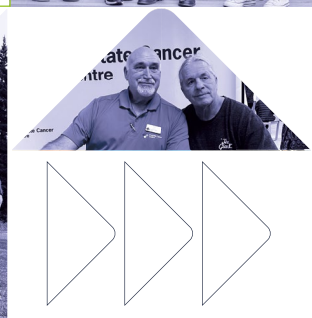

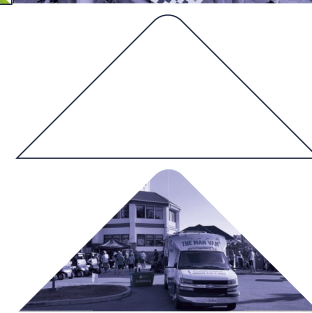

2023 MARKETING AND FUNDRAISING EVENTS

Saving lives and saving families – our partners took that seriously in 2023. With their unwavering dedication and generosity, we soared to new heights, hosting **20 remarkable events throughout the year**, 10 of which were brand new endeavors. This is an incredible testament to YOU - **the power of our community**. As a combined effort, **we raised over \$850,000** at these events and your contributions didn't stop there; an additional **\$130,000 of unbudgeted revenue** poured in, an indication of the boundless compassion and commitment within our community.

We also marked an incredible milestone this year, and celebrated the **25th annual Priddis Charity Golf Classic**. Since its inception, the event **has raised over \$8M dollars** and created meaningful relationships that have propelled us forward to where we are today.

Each dollar raised through these events has not only fueled our purpose but has also ignited hope in the hearts of countless individuals affected by prostate cancer. Thank you for being champions of change in this fight.

Together, we are making a tangible difference, one event, one donation and one life at a time.

THANK YOU

There have been many changes since the Prostate Cancer Centre was first established in 1999 but none so dramatic than 2023. This past year was transformational, and we simply could not have done it alone. Our community inspired us, pushed us and contributed to all that was accomplished in 2023, an extraordinary year. The annual report is our way of expressing our gratitude and telling a story of how everyone took part in our physical and program expansion.

For the Community by the Community

With great gratitude – thank you to the donors, volunteers, staff and the community!

**Prostate Cancer
Centre**
